

WHOIS

The web based Whois lookup can be found under the Janet App Centre: Whois [1].

There is a WHOIS command line server also available for querying registrations under ac.uk and gov.uk. To submit a query, use the UNIX command:

whois -h whois.ja.net domainname.ac.uk

The database is updated on a twice daily basis.

If you have any further queries about the availability of a domain name under ac.uk or gov.uk please telephone Janet Service Desk on 0300 300 2212 or email domains@jisc.ac.uk [2].
